

LZD 2820

REAR MULTIFUNCTION LIGHT STRADA

The modern rear multifunction light **STRADA LZD 2820 (left)** belongs to the HOR 124 product group, requires a universal supply voltage of 12/24 V and equipped with 71 LEDs. The lamp combines all important lighting functions applied for delivery vehicles and trailers, tow trucks and agricultural trailers. These are: NEON rear position light (2,2/5,5 W), brake light (2,8/3,6 W), reversing light (2,2/6,4 W), fog light (4,8/5,5 W), rear direction indicator (1,7/2,4 W), number plate light (0,5/1,2 W) and reflective triangle. The lamp is made of high-quality materials with appropriate resistance to impact damage. The aspect of protection against the water-ingress, mud and dust is also important. In this case, **STRADA** lights offer a great IP 68 ingress protection rating. The wide permissible operating temperature range is from -30°C to +50°C. The lamp has the required European E9 homologation and is approved for use. The multifunction lamp **STRADA** is a product of new aesthetic and necessary functional values, which thanks to the use of prime quality materials, will ensure a long service life.

DANE TECHNICZNE

Light group	LED quantity	Light category
