REAR MULTIFUNCTION LIGHT CLEOMAX

Attractive and modern design, high-quality materials and implemented energy-efficient LED technology, which ensures very good lighting parameters at very low power consumption, are the special hallmarks of multifunction lamp **CLEOmax LZD 2841**. The lamp is fully hermetic (ingress protection rating IP 68), and the operating temperature range is from -30 degrees C to + 50 degrees C. Only branded diodes are used for production, ensuring excellent quality of products. The operation of the lamp **LZD 2841** is also guaranteed in a way that does not emit electromagnetic interference and is electromagnetic interference-resistant, which is confirmed by the EMC certificate. **CLEOmax** is universal in assembly, it can be installed both on the left and right side of the vehicle, vertically and horizontally. The lamp fulfills the following functions: position light with NEON effect, direction indicator, brake light, reversing light and reflective device. This model is dedicated to various types of vehicles such as trailers, semi-trailers, tow trucks, agricultural machines and special vehicles.
