

LTD 2833

NUMBER PLATE LIGHT

The license plate lamp **LTD 2833** is a modern product and is suitable for various types of vehicles. Instead of traditional spot **LED** lighting, it features the **NEON effect**, which ensures consistent and uniform illumination. It is a top-quality product with an **IP 68** ingress protection rating and can operate in a temperature range **from -30°C to +50°C**.
