

LRD 3043/BL/A1

WORK LAMP WITH WARNING LIGHT (6500 K)

Introducing our latest collection of **LED work lamps with strobe light**, available in 3 different housing colors: – black **LRD 3043/BL/A1. Orange** warning light, **1 brightness level: night**; – black **LRD 3043/BL/B2. Blue** warning light, **2 brightness levels: day/night**; – yellow **LRD 3043/Y/A1. Orange** warning light, **1 brightness level: night**; – red **LRD 3043/R/B2. Blue** warning light, **2 brightness levels: day/night**. Horpol's latest line of work lamps, like other models, is equipped with the highest quality **LEDs**. These lamps operate on a universal voltage of **12/24 V** and are specifically designed to consume minimal energy. During nighttime work, the field is illuminated by **20 LEDs** that emit a cold **6500 K** color, which is visually pleasing. **Additionally, there are 6 LEDs included in the strobe lamp.** With its rectangular shape, the lamp emits a light output of **1000 lumens**. Additionally, the lamp is fully hermetic (ingress protection rating **IP 68**) resistant to high and low temperatures and mechanical damage. The white light provides a further distance of **8 meters** and a wider scope of illumination, increasing visibility for driving safely and working during late nights. The lamp has **an aerodynamic housing design** that perfectly adapts to flat surfaces of vehicles. It includes screw covers for easy installation and a unique gasket beneath the lamp to ensure proper sealing.

DANE TECHNICZNE

Dispersed light	Brightness level	Warning light
yes	night	yes
Light group	LED quantity	Light category
HOR 137	26	working light
Supply voltage	Power rating	Operating temperature range
12/24 V	12 W/max 9 W	from -30°C to +50°C
Cable	Side	Colour temperature
4×0,5 mm ² ; length 0,5 m	universal	6500 K
Luminous flux	LED light	Ingress protection rating
1000 lm	yes	IP 68

OPIS

Application of lamps for outdoor lighting: - work lighting in tow trucks; - work lighting in police and municipal guard enforcement vehicles, police cars; - work lighting in fire brigade vehicles; - work lighting in ambulances, emergency medical services, and other sanitary vehicles. The operation of the lamp is also guaranteed in a way that does not emit electromagnetic interference and is electromagnetic interference-resistant, which is confirmed by the **EMC certificate**. Our offer also includes lamps with work light in 4 housing colors: **LRD 3042/BL, LRD 3042/WH, LRD 3042/Y, LRD 3042/R**. All lighting products are made in Poland by the manufacturer Horpol, which is one of the leading manufacturer and expert in the field of automotive lighting.
