

## LZD 2855

### REAR MULTIFUNCTION LIGHT HEAVY DUTY WITH REFLECTIVE DEVICE

The **Heavy Duty LZD 2855 (right)** rear multifunction lamp has been designed with durability, performance and efficiency in mind. Featuring **replaceable LED modules**, this lamp offers **139 diodes** and operates at a supply voltage of **24 V**, providing a strong and distinct illumination. **Functions:** - position light (4 W), - brake light (10 W), - rear direction indicator (5,5 W), - reversing light (4 W), - fog light (5,5 W), - and reflective device, providing comprehensive lighting for truck tractors, trucks, vans, agricultural machines and special vehicles, as well as tow trucks. The lamp modules also have a high **IP 68** ingress protection rating and an operating temperature range from **-30 to +50** degrees, making them exceptionally suited for use under various weather conditions. In addition to this, they offer electromagnetic compatibility (**EMC**), which stands as an additional advantage of these lights. As a result, there are no concerns regarding electromagnetic interference that could potentially affect other devices within the vehicle. The **LZD 2855** multifunction lamp is a perfect choice for those who are looking for a durable, efficient and practical lighting for their vehicle. Regardless of weather and terrain conditions, this lamp will provide reliable lighting and safety on the road.
