

## LZD 2854

### REAR MULTIFUNCTION LIGHT HEAVY DUTY WITH REFLECTIVE DEVICE

The **Heavy Duty LZD 2854 (left)** rear multifunction lamp has been designed with durability, performance and efficiency in mind. Featuring **replaceable LED modules**, this lamp offers **139 diodes** and operates at a supply voltage of **24 V**, providing a strong and distinct illumination. **Functions:** – position light (4 W), – brake light (10 W), – rear direction indicator (5,5 W), – reversing light (4 W), – fog light (5,5 W), – and reflective device, providing comprehensive lighting for truck tractors, trucks, vans, agricultural machines and special vehicles, as well as tow trucks. The lamp modules also have a high **IP 68** ingress protection rating and an operating temperature range from **-30 to +50** degrees, making them exceptionally suited for use under various weather conditions. In addition to this, they offer electromagnetic compatibility (**EMC**), which stands as an additional advantage of these lights. As a result, there are no concerns regarding electromagnetic interference that could potentially affect other devices within the vehicle. The **LZD 2854** multifunction lamp is a perfect choice for those who are looking for a durable, efficient and practical lighting for their vehicle. Regardless of weather and terrain conditions, this lamp will provide reliable lighting and safety on the road.

### DANE TECHNICZNE

Light group	LED quantity	Light category
HOR 129	139	multifunction rear
Rear position light	Supply voltage	Reflecting device
yes	24 V	yes
Operating temperature range	Cable	Side
from -30°C to +50°C	6×0,5 mm <sup>2</sup> ; cable length 1,5 m	left
Reversing light	Fog light	Brake light
yes	yes	yes
Rear direction indicator	LED light	Ingress protection rating
yes	yes	IP 68
