

LZD 2854

REAR MULTIFUNCTION LIGHT HEAVY DUTY WITH REFLECTIVE DEVICE

The **Heavy Duty LZD 2854 (left)** rear multifunction lamp has been designed with durability, performance and efficiency in mind. Featuring **replaceable LED modules**, this lamp offers **139 diodes** and operates at a supply voltage of **24 V**, providing a strong and distinct illumination. **Functions:** – position light (4 W), – brake light (10 W), – rear direction indicator (5,5 W), – reversing light (4 W), – fog light (5,5 W), – and reflective device, providing comprehensive lighting for truck tractors, trucks, vans, agricultural machines and special vehicles, as well as tow trucks. The lamp modules also have a high **IP 68** ingress protection rating and an operating temperature range from **-30 to +50** degrees, making them exceptionally suited for use under various weather conditions. In addition to this, they offer electromagnetic compatibility (**EMC**), which stands as an additional advantage of these lights. As a result, there are no concerns regarding electromagnetic interference that could potentially affect other devices within the vehicle. The **LZD 2854** multifunction lamp is a perfect choice for those who are looking for a durable, efficient and practical lighting for their vehicle. Regardless of weather and terrain conditions, this lamp will provide reliable lighting and safety on the road.

DANE TECHNICZNE

Light group	LED quantity	Light category
HOR 129	139	multifunction rear
Rear position light	Supply voltage	Reflecting device
yes	24 V	yes
Operating temperature range	Cable	Side
from -30°C to +50°C	6×0,5 mm ² ; cable length 1,5 m	left
Reversing light	Fog light	Brake light
yes	yes	yes
Rear direction indicator	LED light	Ingress protection rating
yes	yes	IP 68
