

LD 2332/GRAPHITE

MARKER LIGHT SLIM

The SLIM LD 2332/GRAPHITE marker light with an optical fibre combines elegant design with high functionality. With its dark shade, the light follows modern trends in vehicle design while providing adequate visibility on the road. **Product features:** - **Front position light.** The lamp emits **white** light to enhance road safety by making your vehicle better visible in various conditions. - **Number of LEDs.** Fitted with **6** high-efficiency **LEDs**, the lamp provides efficient lighting with minimal energy consumption. - **Universal supply voltage.** Operating at **12/24 V**, it is perfect for a variety of vehicle types. - **Low power rating.** With a power output of **0.3 W** (at 12 V) and **1.3 W** (at 24 V), the light is energy-efficient, a property that translates into longer life and less strain on the battery. - **High IP 68 rating.** The light is fully hermetic and resistant to mechanical damage. - **Wide operating temperature range from -30°C to +50°C.** Suitable for all weather conditions, the product will be a reliable choice all year round. **Make sure you stay safe on the road! Discover our collection of [GRAPHITE lights](#), a stylish solution for the automotive industry.**

DANE TECHNICZNE

Light group	LED quantity	Light category
HOR 91G	6	marker
Supply voltage	Light colour	Power rating
12/24 V	white	0,3/1,3 W
Operating temperature range	Cable	Side
from -30°C to +50°C	2×0,75 mm ² ; cable length 0,5 m	universal
Front position light	LED light	Ingress protection rating
yes	yes	IP 68
