

LRD 3072

WORK LIGHT

The **LRD 3072** work lamp is a reliable and efficient solution with perfect combination of technical parameters. Equipped with **6 LEDs**, it generates **dispersed**, white light with a color temperature of **5600 K** and an impressive luminous flux of **1200 lm**. The white light provides a further distance (**8 m**) and a wider range of lighting, increasing visibility to ensure safe driving and working in the late evening hours. The tilting support allows the possibility of changing the angle of the lamp, and thus the light distribution. Thanks to the universal supply voltage (**12/24 V**) and nominal power of **10 W**, the lamp is perfect for various applications, in difficult atmospheric and industrial conditions. The lamp is completely resistant to mechanical damage, extremely durable in contact with dirt and moisture (ingress protection rating **IP 68**). The operation of the lamp is also guaranteed in a way that does not emit electromagnetic interference and is electromagnetic interference-resistant, which is confirmed by the **EMC certificate**.

DANE TECHNICZNE

Dispersed light	Light group	LED quantity
yes	HOR 142	6
Light category	Supply voltage	Light colour
working light	12/24 V	white
Power rating	Operating temperature range	Cable
10 W	from -30°C to +50°C	2x0,75 mm ² ; cable length 1,5 m, round
Connection method	Side	Colour temperature
screw-on	universal	5600 K
Luminous flux	LED light	Ingress protection rating
1200 lm	yes	IP 68

OPIS

The **HOR 142 lamp group also includes:** - Work lamp with warning light (**blue**) [LRD 3069](#); - Work lamp with warning light (**orange**) [LRD 3068](#); - Work light with magnetic assemble base and cigarette lighter plug [LRD 3070](#); - Work lamp with handle and cigarette lighter plug [LRD 3071](#). All lighting products are made **in Poland** by [Horpol](#), which is one of the leading automotive lamp manufacturer.
